For State Representative - 88th District

Joshua Elliott (Democratic, Working Families)

1. Why are you running for this office?

Because I believe that the largest problem we have in CT is the way our economy works. Until we pay all of workers a livable wage, there will not be enough disposable income to induce new entrants to markets.

- 2. What are your top 3 legislative priorities?
- \$15 Minimum Wage, Paid Family Medical Leave, Stripping large educational organization of their tax exempt status.
- 3. Do you believe there are barriers to voting in Connecticut? If so, what would you do the eliminate them?

It is great to see our system of automatic enrollment through the DMV becoming a driving force in ensuring the empowerment of our citizens. There is still the issue of low income earners being unable to take Tuesdays off to vote - I believe that we need a state-wide holiday for voting, or perhaps change our voting days to a Saturday or Sunday.

Marjorie Bonadies (Republican)
